

# Mental Health Training & Specialist Consultancy Service

We provide mental health training and specialist consultancy within a wide variety of environments spanning public, private and voluntary sectors within health and social care.

We realise that achieving excellence in the services you provide, requires your employees receive the right training, at the right time and at the highest level to bring out their best.

We understand that learning needs are diverse. It is our professional commitment to our customers to meet and develop specific training or consultancy packages in order to meet their needs and promote innovation.

## Testimonials:

"Very engaging, explorative, thought-provoking, practice-challenging, well-informed experience... Had patients needs at the centre...reflective and personal."

### **Occupational Therapy Assistant**

"A heartfelt thank you for your knowledge and dedication. Your expertise and insight is very much appreciated. I cannot wait for tomorrow..."

**Qualified Nurse, Glen Care**

"Fantastic: an outstanding ability to find creative solutions for even the most complex of situations. A complete pleasure to work with and to be advised by, provides us with not only exceptional inpatient care expertise but also with a range of innovative and practical ways of improving inpatients experiences and outcomes. We couldn't hope for a more wonderful service. It's the classic 'exceeding expectations' situation, every time. Amazing. Thank you."

**Marion Janner OBE, Chief Executive, Bright**
